

NEW PRODUCT RELEASE

FE201099 Stainless Steel L Track Kit

Easy Installation

No router is required and only **simple tools** are needed for the **quick and easy surface mount** installation of the Stainless Steel L Track Kit. Its **small size** makes it ideal for vehicle retrofit installations where floor space is limited.

Corrosion Resistance

The Stainless Steel L Track endures harsh climates and everyday elements. It is **more durable** and **less corrosive** than present systems - minimizing potential corrosion, rust and stains.

Design

The Stainless Steel L Track features a **low-profile** and **smooth design** - increasing wheelchair accessibility and reducing potential tripping hazards.

Complete Kit

Includes all hardware needed for installation: 3 1/2" x 7/16" Bolt, Washer and Hex Nut.
